

Lotus Notes

D8720 Exploring New Features in IBM Lotus Domino 8 Administration

Length: 2 day

Audience

The target audience for this course is experienced Lotus Domino 7 administrators who require early exposure to new Lotus Domino and Lotus Notes 8 features that impact system administration.

Description

As an experienced IBM® Lotus® Domino® 7 administrator, you are familiar with Lotus Domino 7 administration concepts and procedures. With the release of Lotus Domino 8, there will be entirely new features as well as feature and tool updates for you to integrate into your administration expertise and practices. In this course, you will identify and explore the new features in Lotus Domino 8 administration.

Prerequisites

The prerequisites for this course include completion of either of the following Lotus Domino 7 paths or equivalent knowledge, skills, and experience:

Administrators who were new to Lotus Domino 7 and completed the following courses:

- IBM® Lotus® Domino® 7 System Administration Operating Fundamentals
- Building the IBM® Lotus® Domino® 7 Infrastructure
- Managing IBM® Lotus® Domino® 7 Servers and Users.

Objectives

Upon successful completion of this course, students will be able to:

- Identify the high-level changes in the Lotus Domino 8 administration and user environments, and install and configure Lotus Domino 8 servers and Lotus Notes 8 clients.
- Implement new messaging features in Lotus Domino 8.
- Manage users and clients with administration enhancements in Lotus Domino 8.
- Administer servers using administration enhancements in Lotus Domino 8.
- Deploy composite applications.
- Migrate a Lotus Domino 7 environment to Lotus Domino 8 and Lotus Notes 8.

Course Content

Lesson 1: Examining the IBM® Lotus® Domino® 8 Environment

Topic 1A: Overview of New IBM® Lotus® Domino® 8 Administration Features

Topic 1B: Overview of New Features in IBM® Lotus® Notes® 8 Clients

Topic 1C: Installing New IBM® Lotus Notes® 8 Clients

Lesson 2: Implementing New Messaging Features

Topic 2A: Enabling Message Recall

Topic 2B: Using Out of Office Service Enhancements

Topic 2C: Controlling Inbox Size with Inbox Maintenance

Topic 2D: Implementing General Messaging Enhancements

Lesson 3: Managing Users and Clients with Administration Enhancements

Topic 3A: Implementing New Client Policies

Topic 3B: Implementing New Client Security Features

Lesson 4: Administering Servers with Administration Enhancements

Topic 4A: Using General Administration Enhancements

Topic 4B: Employing New Server Monitoring Options

Topic 4C: Implementing Database Redirection
Topic 4D: Implementing New Server Security Features
Topic 4E: Integration and Interoperability Enhancements

Lesson 5: Deploying Composite Applications

Topic 5A: Composite Application Deployment Fundamentals
Topic 5B: Configuring Clients to Access Composite Applications on WebSphere Portal
Topic 5C: Introduction to Composite Application Provisioning
Topic 5D: Configuring Clients for User-Initiated Updates

Lesson 6: Migrating an Environment to Lotus Domino 8 and IBM® Lotus Notes® 8

Topic 6A: Upgrading IBM® Lotus® Domino® 7 Servers to Lotus Domino 8
Topic 6B: Upgrading IBM® Lotus Notes® Clients to Lotus Notes 8

Appendix A: Solutions to Lesson Labs and Practice Activities Supplemental Topic About This Appendix

Appendix B: The Worldwide Corporation Infrastructure Plan

Appendix C: Certification and Exam Competencies

Appendix D: Instructor Preparation
