Microsoft Project 2003: Level 2

Course length: 1 Day

Course Description

Microsoft Project 2003: Level 2 is the second course in the Microsoft Project 2003 series. In Microsoft Project 2003: Level 1, you used your project management skills to create a complete project plan. This course will build upon that knowledge, and give you the opportunity to work with a project plan once it has entered the project implementation phase.

Course Objective: You will exchange project plan data with other applications, update project plans, create custom reports, and reuse project plan information.

Target Student: This course is designed for a person who has an understanding of project management concepts, who is responsible for creating and modifying project plans, and who needs a tool to manage those project plans. It is also intended for a person who has a basic understanding of Microsoft Project 2003.

Prerequisites: Students enrolling in this class should have:

- An understanding of project management concepts.
- Knowledge of a Windows operating system.
- Microsoft Project 2003: Level 1.
- Knowledge of Microsoft Office 2003 applications would also be helpful.

Upon successful completion of this course, students will be able to:

- exchange project plan data with other applications.
- update a project plan.
- create custom reports.
- re-use existing project plan information.
